(Ongoing)

LANGUAGES

English: Proficient

Polish: Native

PROFILE

I am a versatile and ambitious professional making a career transition from retail management to software engineering, with a passion for coding and a drive to build impactful, user-focused solutions. As a self-directed learner, I have completed coding programs such as Harvard's CS50, SheCodes, and Code First Girls, gaining hands-on experience in Python, JavaScript, and API integrations. I am currently expanding my expertise in iOS and Swift development. I excel in collaborative environments and enjoy solving real-world challenges through innovative problem-solving. I am seeking a dynamic and rewarding junior software developer position in a growth-oriented organisation where I can apply my skills and continue to learn.

PREVIOUS WORK

SENIOR GENERAL MANAGER

Pret A Manger | 2016 - 2021

Successfully managed multiple West End Shops with a team of over 40 individuals achieving an EBITDA of over three million pounds per year.

Key responsibilities included:

- **Recruited, onboarded, and trained** employees in line with company standards.
- **Created** succession plans and promotion paths for staff development.
- **Handled** HR functions, including payroll processing, grievance resolution, and GDPR compliance.
- **Managed** schedules and leave planning to optimise operational efficiency.
- **Drove** sales growth by analysing KPIs, ensuring excellent customer service, and maintaining high product quality.
